

Udacity DAND Tableau Project

Read me first

by Teresa Aysan

Submitted April 6, 2018

I recorded and uploaded an audio recording of my peer review with Roy. We used his phone, and the file was small enough for git hub.

I also recorded my last peer review with Mike and Ken, on Ken's phone, but the audio file was too large for git hub. I guess it depends on the phone.

I also scanned notes from my peers, but the file was too large for git hub. My scanner does that, it's very annoying.

I hope you enjoy my Tableau Story.

Regards,

Teresa Aysan
